Day 1: 30th July 2026

Time		
0730	**Registration**	
08.00- 08.30	Welcome and housekeeping **Lecture:**	General principles of blocks Planar vs direct nerve blocks Amount of anaesthetic Adjuncts Monitoring/toxicity
08.30 – 8.40	Move to cadaver lab	
08.40-9.40	**Module 1** **Blocks for hip femur knee injuries**	PENG FIB SIFI
9.40 –10.00	**MORNING TEA**	
10.00 – 11.00	**Module 2** **Blocks for shoulder/clavicle/ proximal humerus**	Interscalene Infraclavicular brachial plexus Axillary brachial
11.00- 12.00	**Module 3** **Blocks for foot lower leg injuries**	Sciatic nerve block Tibial nerve Saphenous nerve
12.00 – 12.30	**LUNCH**	
12.30 - 13.30	**Module 3** **Block for hand injuries and chest**	Ulnar mid arm Median nerve Serratus anterior
13.30- 14.30	**Module 4** **Head blocks**	Supraorbital Infraorbital Teeth Occipital
14.30 -	Wrap up and finish	

Day 2: 31st of July 2026

Time		
08.00	Introduction	
8.30 – 9.30	**Lecture**	Fundamentals of laryngoscopy Trouble shooting video laryngoscopy
9.30 -9.45	**MORNING TEA**	
9.45 – 12.00	**Hands on**	Hyperangulated video Laryngoscopy Supraglottic airways Fibreoptic scope
12.00 - 12.30	**LUNCH**	
12.40 – 15.20	**Hands on**	Surgical cricothyroidotomy (front of neck) Lateral canthotomy Tube thoracostomy Vascular Access ○ MAC line subclavian ○ Interosseous access
15.20 – 15.30	**AFTERNOON TEA**	
15.30 16.30	**Hands on**	Resuscitation thoracotomy
16.30	Wrap up and finish
